

**At the border..**

**TAKE TYRE PRESSURE DOWN TO AT LEAST 1.5 BAR**

Please have your car registration papers ready..

These MUST be original and CERTIFIED by the commissioner of oaths forms.

These state the vin number or chassie number and the engine number..

The license disc on the car windscreen also reflects these numbers..

Once through police check, have your passport and drivers license card ready.

On Mozambique side of border, to your left is a small immigration building.

Here you will fill in the car import paper work.

Proceed then to one of the insurance huts it will be R250. for 3rd party insurance which you are obliged to take.

The South African Police Service (SAPS) has implemented new regulations that require drivers of cars with South African-registered plates to carry certified documents proving ownership. This new requirement will be implemented at all South African border posts, according to **Vishnu Naidoo**, SAPS head: Media Communications.

**The certified documents should include:**

- A certified copy of vehicle registration/vehicle license papers which must be presented at the border posts.
- A letter from the bank giving authorisation to take the vehicle across the border and must indicate dates of travel.
- Both the bank letter and license papers should be signed by a Commissioner of Oaths.

**If the driver of the vehicle is not the owner of the vehicle:**

- An affidavit from the police giving authorisation from the financial institution/owner to take the vehicle abroad is required.

**If the car is rented:**

- The driver must have a letter from the rental company giving permission to take the vehicle out of the country.

Regulations do change, and a customs officer advises SA travellers to check with the SA Auto Club on border regulation updates.

**PLEASE BE SURE TO STAMP YOUR PASSPORT ON BOTH SIDES OF THE BORDER..MOZ AND SA !!**

**GPS co-ordinates for Ponta Malongane**

S26°47'22.9" E32°53'16.3"

Trust this helps ☺
